SUMMARY

Fresh graduate in Computer Engineering transitioning into QA Engineering, currently building hands-on experience in web development and testing tools. Proficient in JavaScript, React.js, and automated testing using Playwright and Katalon Studio. Detail-oriented and motivated professional eager to leverage technical background and testing skills to contribute to software quality and reliability.

EDUCATION

Institut Teknologi Telkom Purwokerto   Purwokerto, Indonesia

Bachelor of Informatics Engineering   August 2019 – May 2024
GPA: 3.44/4.0
Final Project: Implementation of blockchain technology using NFTs for music event ticket sales, developed with Next.js, TailwindCSS, and Thirdweb.

WORK EXPERIENCES

Puskomedia Indonesia Kreatif   Purwokerto, Indonesia
Web Developer - Intern   Agustus 2022 – September 2022

- Developed a geolocation feature with regional mapping on the Panda SID (Sistem Informasi Desa) website using the CodeIgniter framework.
- Optimized database queries for the PKH (Program Keluarga Harapan) feature using SQL and visualized the data with Laravel and Highcharts.
- Collaborated with the development team on code reviews and debugging.

CERTIFICATE

Quality Assurance Engineer — Purwadhika Digital Technology School
Currently enrolled: June 24, 2025 – In Progress

- Intensive training in manual and automated testing methodologies
- Hands-on experience with automated testing using Playwright and Katalon Studio
- Learning comprehensive test case design, bug reporting, and QA best practices

Full Stack Web Developer — Purwadhika Digital Technology School
Held on: 28 October 2024 – 05 June 2025

- Comprehensive study of front-end and back-end technologies: JavaScript, React.js, Next.js, Node.js, and SQL
- Gained practical knowledge in full-stack development workflow and best practices
- Completed training modules covering frontend-backend integration and API handling

Junior Web Developer — Badan Nasional Sertifikasi Profesi (BNSP)
Issued: February 2024 - February 2027

- Completed national competency assessment in basic web development
- Built a hotel booking interface using Next.js, featuring a responsive landing page, hotel class selection, booking form, and total price calculation

SKILLS

- **Programming Languages**: JavaScript, TypeScript
- **Frontend Technologies**: React.js, Next.js, TailwindCSS
- **Testing Tools**: Playwright (Automated), Katalon Studio, Manual Testing
- **Soft Skills:** Analytical Thinking, Attention to Detail, Problem Solving, Team Collaboration
- **Languages:** Indonesian (Fluent), English (Intermediate)
